About Me

Computer Science student and MERN full-stack developer blending technical engineering with a creative edge in content creation and video editing. Currently learning Japanese and preparing for the JLPT to pursue my long-term career goals in Japan's innovative, global tech industry.

Education

(2022)
VETRI VIKAAS PUBLIC SCHOOL(CBSE)
percentage - 80.4%

(2022 - 2024)
MUTHAYAMMAL POLYTECHNIC COLLEGE
percentage - 99.2%

(2024 - 2027)
ANNA UNIVERSITY,CHENNAI
CGPA - 7.5

Skills

- C, C#
- Java
- Editing
- DBMS
- Japanese
- React

PROJECTS

BENKYOBOX-勉強 FEB - 2026

Tech Stack: Next.js, React, and Tailwind CSS

- BenkyoBox (from the Japanese word 勉強 benkyō, meaning -tostudy- is a modern, interactive web application built using Next.js, React, and Tailwind CSS designed to help users study and master the Japanese language.

TAMIL 1-MARK 2-MARK ANSWER PAPER EVALUATION SYSTEM APRIL - 2026

Tech stack: Python, Flask, Google Gemini API, Sentence Transformers, RegEx, HTML, CSS

- Developed an automated web application to streamline exam grading from uploaded image scripts, mitigating human subjectivity and grading delays.
- Integrated the Google Gemini API to perform highly accurate Optical Character Recognition (OCR), extracting structured text from handwritten and printed answer sheets.
- Built a rule-based validation module for Mathematics that extracts numerical properties and applies tolerance thresholds to grade calculations fairly.

INTERN MAY - 2023

- Completed a one-month internship at MEE Technology, where gained hands-on experience in C# with the NET Framework.

COURSES

- Completed N5 Japenese course certifiction. JLPT -N5
- Python for Data Science - NPTEL
